

WHITEPAPER

INTRODUCTION

DOGEMETA Community was created as a virtual currency in a fun environment on the Binance Smart Chain (BSC).

It was modeled around the popular Trending character DOGE & METaverse are meant to provide users special problem solving skills while allowing them to explore the decentralized world. Dogemeta coin prioritizes security, transparency and anonymity.

ABOUT

The metaverse is a concept that has gained significant attention in recent years, embodying the convergence of virtual and physical realities into a seamless, interconnected digital space.

Inspired by the popular character DOGE and the concept of the metaverse, Dogemeta offers users a playful yet innovative environment. By fusing the charm of DOGE with the possibilities of the metaverse, Dogemeta empowers users with problem-solving skills and an avenue to navigate the decentralized realm.

ROADMAP

The diagram features a central vertical yellow line with four yellow circular nodes. Four text boxes are connected to these nodes by thin yellow lines. The background is dark blue with a faint 'DOGE META' logo and a Shiba Inu dog illustration. A large, faint 'ID' logo with a checkmark is in the top right corner.
